Letter of Commendation for

[Redacted]

STAT

1. Over the past two years [Redacted] has been dedicated to the analysis, design, and actual programming of the CPBS system for the Program and Budget Staff of the Intelligence Community Staff. Earlier this year the system went operational and is being exercised in the FY 1986 budget cycle by the Program Monitors at the ICS for the Intelligence Community.

STAT

2. In due course, the Program Monitors have made requests for basic reports needed to analyze submitted budgets. Recently, with the submission of FY 1986 budget in mid-September, a pressing need for a budget year's comparison report arose. [Redacted] proceeded to write the extensive code in the M204 language needed to compare program budget submissions from previous years against current submissions by projects within expenditure centers. The effort was completed quickly, and the resulting report exceeds our expectations.

3. The fine support provided [Redacted] is exemplified by the extraordinary technical efforts of [Redacted] on this particular task.
